

What's New!

Racing With the Moon

9-Week Racing Series

Ages 21 and over

1. Get a Night Season Pass for \$129

All Racing With the Moon participants will be eligible to purchase a Night Season Pass for \$129, which is incorporated in your race fee. The total cost is \$214, includes \$85 race fee and \$129 night pass. This is a direct-to-lift pass that allows to by-pass the ticket window all together. No blackout dates and valid 4pm-close every day and valid noon-close on your race day. This is the most affordable way to ski and ride all season long.

2. Now Open Later!

You wanted it, so you got it! By popular demand, Shawnee Peak will keep the new Summit Express running until 8:30pm every race night all season long! Now you have extra time to race or freeride each Wednesday and Thursday night. Don't forget that your RWTM pass is good for a full day of skiing and riding as well. And your Full Season Night pass gets you direct-to-lift access every night of the year!

3. Over \$1 Million in Mountain Improvements!

Shawnee Peak introduces the Summit Express! This improved triple chair was installed during the summer of 2010 and stands ready to get you to the top a full 20% faster than before. The new seats are wider and more comfortable making your experience more enjoyable. Along with the new lift is a state of the art loading conveyor. This new system will automatically bring you to your chair reducing slows and stops by up to 50%! Faster lift and less stops means more skiing!
