

IT Director - Shawnee Peak Ski Area

Shawnee Peak is looking for a mid-level individual to oversee the ski area's IT programs, to ensure daily maintenance and support of all infrastructure and ensure operational efficiency.

Roles & Responsibilities

Be the point person to maintain the Shawnee Peak IT infrastructure, which encompasses several programs specific to different departments (ticketing, food & beverage, snowmaking, rental shop, etc.) and ensuring our programs (phone, computer, internet) are online.

You will liaison with our third-party IT manager to manage our infrastructure and troubleshoot when necessary. Maintaining the databases and ensuring all upgrades are current is a top priority.

Other Tasks as Listed:

- Manage all projects, new and existing
- Establish relations with our vendors
- Work with management to define capital and annual budget expenses
- Microsoft Windows workstation and server setup, repair, and upgrades, including Office
- Maintain / Install our network and voice cable system
- Maintain / Install devices such as switches, printers, terminals, computers, phones, etc.

You will be required to understand the nuances of our business and how IT can help with challenges and opportunities as required for the day-to-day and long-term management.

Qualifications

2-3 years of expertise in a full-time IT role is preferred. Consideration will be given to those with bachelor's degree or the equivalent in the computer sciences / IT field as a substitute. Must be proficient in all Microsoft applications including servers and network management. A desire for continuous improvement and learning is expected. The successful candidate will have a strong technical background, superior project management and be a creative problem solver.

Workplace

This job is full-time and can be seasonal or year-round.

Shawnee Peak is an equal opportunity employer and salary and benefits are competitive, commiserate with experience.

During the winter months, it may be required to work weekends & holiday periods, as well as be on-call for emergencies. All applicants may be asked to perform non-routine tasks or responsibilities where asked by senior management.
